

WHAT IF MPS HAD AN EDUCATIONAL FARM?

**URBAN
EDUCATION FARM**
Feasibility Study

The Minneapolis Public Schools wants your great ideas for creating an educational farm experience for district students of all ages, their families, and the broader community. Help us create a vision for what it could like!

Use the colored dots to share what you like best:

THE FARM SHOULD...	LOVE IT	LIKE IT	NOT REALLY	NO THANKS
... connect with school gardens				
... help students learn to cook and eat healthy food				
... help students learn many subjects, such as math, English, history, or art				
... help develop job skills and career prospects				
... utilize many growing tech (solar, high tunnels, aquaponics, hydroponics)				
... be easily accessible to all (walking, biking, transit)				
... offers year-round programming in and out of school				
... have opportunities for families to participate				
... have indoor and outdoor learning space				
... have space for school and community events				
... includes culturally relevant plants and foods
